

Construction Migration Office

**Navigating a new process can be tricky -
but we are here to help!**

The building and construction sector is a key contributor to our State's economy, and the State government have announced a range of key initiatives to support the Western Australian building and construction sector to attract and retain skilled workers.

The Construction Migration Office is a free service providing dedicated end to end support for WA building and construction sector employers to navigate the process of employing a skilled migrant.

Our dedicated team will provide a centralised hub for employers and skilled migrants in the building and construction sector to access all of WA's Migration Services initiatives including the new \$10,000 **Construction Visa Subsidy Program**.

Ready to connect with a skilled migrant?
